

BIO PACKAGING PRODUCT CATALOGUE

Sustainable Service, Delivered SpotON

In the fast-paced world of catering and hospitality, your presentation is your signature. But today's guests are looking for more than just a great meal - they are looking for a commitment to the environment.

At SpotON Supplies, we understand that in a professional kitchen or a high-end event, "eco-friendly" can't mean "flimsy." That's why our new Bio Packaging Range has been specifically engineered to meet the rigorous demands of chefs, hoteliers, and event planners who refuse to compromise on performance.

ENGINEERED FOR THE PROFESSIONAL ENVIRONMENT

We know the challenges of the trade: high temperatures, long transit times, and the need for effortless clean-up.

Our bio-range is built to handle the heat of the pass:

Thermal Integrity

Our bagasse and PLA-lined containers keep food hot and crisp, preventing the dreaded "soggy base" during delivery or transit.

Chef-Grade Durability

From leak-proof lids for signature sauces to sturdy wooden cutlery that actually cuts, our products perform under pressure.

Elevated Aesthetics

Minimalist, clean designs that act as a neutral canvas, ensuring your culinary creations remain the star of the show.

SUSTAINABILITY YOUR GUESTS CAN SEE

Transparency is the new standard in hospitality. By choosing the SpotON Bio Range, you are sending a clear message to your customers.

Bagasse (Sugarcane)

100% compostable; turns waste into resource.

Bamboo & Birch

Rapidly renewable; sturdy and stylish.

PLA (Plant-Starch)

Clear as plastic, but made entirely from plants.

"In an industry built on service, the greatest service we can provide is protecting the environment for the next generation of customers."

Whether you're a boutique café, a high-volume caterer, or a luxury hotel, SpotON Supplies is here to ensure your transition to green packaging is seamless, stylish, and - above all - functional.
